

July 2010

FOODSERVICE ANNOUNCEMENT

Dear Chaminade-Madonna College Preparatory parents and students,

We would like to take this opportunity to introduce our company, SLA Management. We are an Orlando based food management company, and manage private school meal programs throughout Florida and Georgia, including 25 schools in 8 Catholic Dioceses.

We are pleased to announce we have been selected to manage the meal program at Chaminade-Madonna for the upcoming school year. We have a wonderful, diverse and successful meal program, and we are very excited about the opportunity to build the meal program at your school. Many of the existing Chaminade-Madonna cafeteria staff will join our foodservice team.

We use the highest quality ingredients in our meals, and intend to retain the fabric of the current meal program to offer many diverse choices on a daily basis. We offer daily meal options which include freshly prepared hot and cold entrees, side item selections, and beverage for a fixed price of \$5.00 per meal. We will continue to offer "select" a la carte options as well. Our menus are carefully designed to provide quality young adult favorites, balance, nutrition and ample portioning.

We utilize an online payment system for school lunch purchases in addition to accepting cash payments in the lunch line. **We will no longer be using the Lions Express payment system for café transactions.** In order to use the online payment system, your child must be registered. The attached narrative explains the simple and secure method for registering your child. Once your child has been registered, a 5 digit proprietary pin number will be assigned. At this time, you can charge your child's account. The system is set to notify you by e-mail when the account balance has reached \$10.00. As with any online purchasing system, there will be a 2.3% convenience fee. Should you have any questions about the online registration process our staff is available to assist you at online@slamgmt.com. You may begin registering your child's lunch account in late July.

Our meals are designed to be an uplifting and positive experience for students and the school community. We combine traditional favorites with healthy and balanced meals. We become a fabric in the school communities we serve, and we welcome your comments and input. We invite you to visit our website at www.slamgmt.com to learn more about our company and review sample menus. Please feel free to contact us at any time at info@slamgmt.com for a prompt reply. We are delighted to become a part of the Chaminade-Madonna family.

Sincerely,

SLA Management
